

# Project Presentation Guidelines

---

Required Documents for Grading: The mentioned documents should be uploaded to the MIPS server and also be provided to the respective TA's. A soft copy of the documents is sufficient.

## Matlab files or code folder:

1. Rename the folder as "Batch <batch number>".
2. Comment your matlab code properly.
3. Provide a "Read me" file. This file should consist of batch member's information i.e., name and e-mail id. Also it should provide a brief description about code (.m) files.
4. A pdf file with results (matlab plots, tables). Provide a brief explanation to each result in the files. Matlab publish [http://in.mathworks.com/help/matlab/matlab\\_prog/publishing-matlab-code.html](http://in.mathworks.com/help/matlab/matlab_prog/publishing-matlab-code.html) can also be used.

## Presentation Slides:

1. Presentation slides can be in "PowerPoint" or "Latex".
2. The slides should be well organized.

## Project Report:

1. The report can be an elaborated version of the presentation slides.
